

**STANDARD HYBRIDIZERS AGREEMENT AND ENTRY FORM**  
**For All America Select Trial Gardens, managed by NAGC**  
**Revised 2024**

1. This agreement is between the seedling owner \_\_\_\_\_ and The North American Gladiolus Council (NAGC) who is the manager of the AAS Trials and gardens.
2. The seedling owner certifies that this described seedling has never been offered for sale or given away previously, neither public or private and that he/she or the propagator or cataloger of their choice is in full control of said seedling and that this seedling is of North American origin.
3. If the 60 corms are received damaged, the entry may not be accepted unless the hybridizer can send additional stock.

**Complete the following information regarding your entry:**

Seedling Number: \_\_\_\_\_ Parentage: \_\_\_\_\_

Classification Number: \_\_\_\_\_ Description: \_\_\_\_\_  
(color and size)

-----

If this seedling is awarded the AAS status, the hybridizer may retain the option of introducing the seedling by paying NAGC \$100.00. If the hybridizer has selected a cataloger, the cataloger must pay the \$100.00 to NAGC. It is the responsibility of the hybridizer and cataloger to decide the amount the hybridizer is to receive for the AAS seedling. This may be a flat cash fee, a percentage for the number of years agreed upon or trade in kind "corms" or other form. NAGC does not guarantee the exchange of money or corms. This will be the responsibility of the hybridizer and cataloger.

NAGC only guarantees that your seedling, received in good condition, will be in the AAS trials.

NAGC makes no guarantees on shipment of corms or quality of corms received or shipped to the trial gardens. Every effort will be made to have each entry fairly judged and tabulated. The hybridizer agrees that NAGC or its agents accepts no liability for any circumstances, seen or unforeseen, during the trials and/or selection.

This Hybridizer Agreement must be signed and accompany the corms sent to the distributor.
